-- Continued delivery of BioThrax(R) doses under current HHS contract drives 62 percent increase in first quarter revenue -- Continued investment in pipeline through internally generated cash flows -- 2008 financial outlook reaffirmed

ROCKVILLE, Md., May 07, 2008 (BUSINESS WIRE) -- Emergent BioSolutions Inc. (NYSE: EBS) announced today its financial results for the first quarter ended March 31, 2008.

Total revenues for the first quarter of 2008 grew 62 percent to \$42.7 million from \$26.4 million in 2007, primarily from growth in sales of BioThrax(R) (Anthrax Vaccine Adsorbed). Net income for the first quarter of 2008 was \$7.0 million, or \$0.24 per share, in comparison to a net loss of \$2.7 million, or \$0.10 per share, for the comparable period in 2007.

R. Don Elsey, Emergent BioSolutions' chief financial officer, said, "Our first quarter 2008 financial performance reflects the continued strength of our business approach of generating cash flow through sales of our licensed product and reinvesting that cash flow back into development of a pipeline of additional vaccines and therapeutics targeting infectious diseases. During the quarter, we continued to successfully deliver doses of BioThrax to HHS for inclusion in the Strategic National Stockpile. We also sold a modest number of doses to an allied foreign government. We also continued to manage our R&D and SG&A spend, as we look to allocate our resources in a manner that is both prudent and strategic. Finally, we ended the quarter with over \$90 million in cash, which enables us to invest in the growth of our pipeline, both organically and through M&A, and to create growth in shareholder value."

### First Quarter 2008 Highlights

The company achieved the following during the first quarter of 2008:

-- Completed a Phase II clinical study, conducted in Vietnam, of its single dose, oral typhoid vaccine candidate and reported it was highly immunogenic and well-tolerated with an acceptable safety profile in an endemic population;

-- Formed a joint venture in Malaysia with Ninebio Sdn. Bhd. to focus on development of critical immunobiotics and the supply of biodefense countermeasures to the government of Malaysia;

-- Acquired a group of anthrax monoclonal antibodies from AVANIR Pharmaceuticals; and,

-- Appointed Dr. W. James Jackson as chief scientific officer.

# **Product Sales**

For the first quarter of 2008, product sales increased by \$16.1 million, or 63 percent, to \$41.5 million from \$25.4 million for the comparable period of 2007, primarily due to a 68 percent increase in the number of doses of BioThrax delivered. Product sales for the first quarter of 2008 consisted of BioThrax sales to HHS of \$41.1 million and aggregate international and other sales of \$0.4 million.

# Contracts and Grants Revenues

For the first quarter of 2008, contracts and grants revenues increased by \$0.2 million, or 21 percent, to \$1.2 million from \$1.0 million for the comparable period of 2007. Contracts and grants revenues for the first quarter of 2008 consisted of \$0.8 million from the Sanofi Pasteur collaboration related to recognition of deferred revenue associated with the upfront payment received in 2006 as well as development service revenue, and \$0.4 million from the National Institutes of Health.

### Cost of Product Sales

For the first quarter of 2008, cost of product sales increased by \$2.5 million, or 45 percent, to \$8.0 million from \$5.5 million for the comparable period of 2007, primarily due to a 68 percent increase in the number of doses of BioThrax delivered, partially offset by decreased costs associated with improved production yield.

## Research and Development

For the first quarter of 2008, research and development expenses decreased by \$4.1 million, or 26 percent, to \$11.5 million from \$15.6 million for the comparable period of 2007. This decrease reflects lower contract service costs, and includes decreased expenses of \$5.8 million on product candidates that are categorized under the biodefense segment, partially offset by increased expenses of \$1.4 million on product candidates categorized under the commercial segment and \$0.4 million in other research and development.

#### Selling, General and Administrative

For the first quarter of 2008, selling, general and administrative expenses increased by \$0.9 million, or 8 percent, to \$12.1 million from \$11.2 million for the comparable period of 2007. This increase is primarily attributable to an increase of approximately \$0.7 million resulting from the addition of

personnel and increased legal and other professional services related to the company's headquarters and staff organization to support operations as a public company and an increase of \$0.2 million in sales and marketing expenses related to the growth of staff and an increase in selling and marketing activities.

# Financial Condition and Liquidity

Cash and cash equivalents at March 31, 2008 was \$92.7 million compared to \$105.7 million at December 31, 2007. The net decrease in cash and cash equivalents resulted primarily from net cash used in operating activities and investing activities of \$4.8 million and \$10.4 million, respectively, offset by net cash provided by financing activities of \$2.3 million.

### Financial Outlook for 2008

For 2008, the company reaffirms its expectations for full year total revenues of \$180 to \$195 million and net income in excess of \$20 million.

### Conference Call & Webcast

Company management will host a conference call at 9:00 am Eastern on May 7, 2008 to discuss these financial results, recent business developments and the outlook for 2008. The conference call, which will be open to all interested parties, will be webcast and can be accessed from the Investor Relations section of the Company's website at <u>www.emergentbiosolutions.com</u>, under "Investors".
