

# **Emergent BioSolutions Reports Financial Results for First Quarter 2011**

May 5, 2011

ROCKVILLE, Md., May 05, 2011 (BUSINESS WIRE) -- Emergent BioSolutions Inc. (NYSE: EBS) announced today its financial results for the first quarter ended March 31, 2011.

For 1Q 2011, total revenues were \$18.5 million as compared to \$46.8 million in 2010. In addition, for 1Q 2011 the company recorded a net loss of \$21.4 million, or \$0.61 per basic share, as compared to net income of \$2.5 million, or \$0.08 per basic share, in 2010.

R. Don Elsey, chief financial officer of Emergent BioSolutions, stated, "While our first quarter revenues were slightly lower than expected, we remain on track to achieve our full year guidance of total revenues of \$320 to \$340 million and net income of \$35 to \$45 million."

#### 1Q 2011 Key Financial Results

#### **Product Sales**

For 1Q 2011, product sales were \$5.6 million, a decrease of \$33.3 million, or 86 percent, from \$38.9 million for 1Q 2010. This decrease was primarily due to an 88 percent decrease in the number of doses of BioThrax delivered. During the first quarter, the company redeployed its potency testing capacity from BioThrax release testing to qualification of replacement reference standards and other development testing. This process, which is required to enable continued future release of BioThrax doses, has now been substantially completed. Product sales revenues for 1Q 2011 consisted of BioThrax sales to CDC of \$5.0 million and aggregate international and other sales of \$0.6 million.

#### Contracts and Grants Revenues

For 1Q 2011, contracts and grants revenues were \$12.9 million, an increase of \$5.0 million, or 63 percent, from \$7.9 million for 1Q 2010. The increase was primarily due to revenues from the recently awarded contract from BARDA for large-scale manufacturing for BioThrax, collaborations with Abbott and Pfizer, along with increased activity and associated revenue from development contracts with BARDA and NIAID.

### Cost of Product Sales

For 1Q 2011, cost of product sales was \$1.1 million, a decrease of \$6.4 million, or 86 percent, from \$7.5 million for 1Q 2010. This decrease was primarily attributable to the 88 percent decrease in the number of BioThrax doses sold.

## Research and Development

For 1Q 2011, research and development expenses were \$34.8 million, an increase of \$14.8 million, or 74 percent, from \$19.9 million for 1Q 2010. This increase primarily reflects higher contract service and personnel costs, and includes increased expenses of \$13.9 million on product candidates and technology platform development activities associated with the BioSciences segment and increased expenses of \$0.9 million on product candidates associated with the BioDefense segment. Net of development contracts and grants reimbursement revenue along with the net loss attributable to noncontrolling interests, research and development expenses were \$20.0 million for 1Q 2011.

# Selling, General and Administrative

For 1Q 2011, selling, general and administrative expenses were \$18.2 million, an increase of \$2.0 million, or 12 percent, from \$16.2 million for 1Q 2010. This increase is primarily due to increased personnel-related expenses and professional services to support the business. Selling, general and administrative expenses for 1Q 2011 consisted of \$14.0 million associated with the BioDefense segment and \$4.2 million associated with the BioSciences segment.

# Financial Condition and Liquidity

Cash and cash equivalents combined with investments at March 31, 2011 was \$143.3 million compared to \$171.0 million at December 31, 2010. Additionally, at March 31, 2011, the accounts receivable balance was \$12.0 million, which is comprised primarily of unpaid amounts under our NIAID and BARDA development contracts.

#### 2Q 2011 Revenue Forecast

For the second quarter of 2011, the company anticipates total revenues of \$80 to \$90 million.

# 2011 Forecast

For full year 2011, the company is reaffirming its financial forecast of total revenues of \$320 to \$340 million and net income of \$35 to \$45 million.

2011 total revenue is expected to be driven by, among other things:

• the continuation of deliveries of BioThrax under the current multi-year procurement contract with CDC, which was recently

- modified to increase the total contracted doses to 17.9 million;
- additional deliveries of BioThrax under a follow-on, multi-year procurement contract with CDC, anticipated to begin in 4Q 2011:
- a significant increase in contracts and grants revenue based primarily on development contracts related to product development programs in the company's BioDefense segment; and
- collaboration and milestone revenues associated with achievement of clinical development milestones related to the
  company's oncology product candidate, which is under an existing co-development agreement with Abbott, and the
  company's autoimmune product candidate, which is being developed by Pfizer under a license agreement from the
  company.
