Total revenues for Q2 2013 were \$82.4 million as compared to \$70.4 million in 2012. Total revenues for the first six months of 2013 were \$125.5 million as compared to \$120.7 million in 2012.

Net income for Q2 2013 was \$10.5 million, or \$0.29 per basic share, as compared to \$7.6 million, or \$0.21 per basic share, in 2012. Net income for the first six months of 2013 was \$2.4 million, or \$0.07 per basic share, as compared to \$0.8 million, or \$0.02 per basic share, in 2012.

The company reaffirms its forecast for full year 2013 total revenues of \$290 to \$310 million, split between product revenues of \$235 to \$245 million and contracts and grants revenue of \$55 to \$65 million. Daniel J. Abdun-Nabi, president and chief executive officer of Emergent BioSolutions, stated, "We are very pleased with our performance for the second quarter and year-to-date. We achieved strong financial results and significantly advanced our operational objectives, including closing on the Healthcare Protective Products Division of Bracco Diagnostics, Inc, securing German approval of BioThrax<sup>®</sup> with a three-dose primary series and triennial boosters, and continuing to progress our biodefense and biosciences development programs. We are well positioned to continue to deliver financial results in accordance with our forecast and to execute on our growth plan."

#### **Financial Results**

#### **Product Sales**

For Q2 2013, product sales were \$65.6 million, an increase of \$12.4 million from \$53.2 million for Q2 2012, due to a 21% increase in the number of doses of BioThrax delivered along with a modest increase in the average sales price per dose.

For the six month period of 2013, product sales were \$96.0 million, an increase of \$8.4 million from \$87.5 million in the comparable period of 2012, due to a 7% increase in the number of doses of BioThrax delivered along with a modest increase in the average sales price per dose.

#### **Contracts and Grants Revenues**

For Q2 2013, contracts and grants revenues were \$16.8 million, a decrease of \$0.4 million from \$17.2 million for Q2 2012. For the six month period of 2013, contracts and grants revenues were \$29.6 million, a decrease of \$3.6 million from \$33.2 million for the comparable period of 2012. The decrease in both periods was primarily due to decreased revenues from the company's collaboration agreements with Abbott and Pfizer that terminated in 2012.

#### **Cost of Product Sales**

For Q2 2013, cost of product sales was \$16.9 million, an increase of \$3.8 million from \$13.2 million for Q2 2012. For the six month period of 2013, cost of product sales was \$22.6 million, an increase of \$1.9 million from \$20.7 million for the comparable period of 2012. The increase in both periods was primarily due to an increase in the number of BioThrax doses delivered.

#### Research and Development

For Q2 2013, gross research and development expenses were \$30.3 million, a slight decrease from \$30.6 million for Q2 2012. For the six month period of 2013, gross research and development expenses were \$61.0 million, an increase of \$4.1 million from \$56.9 million for the comparable period of 2012. After adjusting for development contracts and grants revenue and the net loss attributable to noncontrolling interests, net research and development expenses for Q2 2013 were \$13.3 million, as compared to \$11.3 million for Q2 2012. Net research and development expenses for the first six months of 2013 were \$30.6 million, as compared to \$20.4 million in the comparable period in 2012. For both periods in 2013, the increase in net research and development expenses was primarily due to development spending on the company's biosciences programs and platform technologies in an ongoing effort to position them for partnering, as well as depreciation related to the company's Baltimore facility.

#### Selling, General and Administrative

For Q2 2013, selling, general and administrative expenses were \$20.5 million, an increase of \$2.6 million from \$17.9 million for Q2 2012. For the six month period of 2013, selling, general and administrative expenses were \$40.5 million, an increase of \$3.1 million from \$37.4 million for the comparable period of 2012. The increase in both periods was primarily due to costs related to the restructuring of the company's U.K. operations and, to a lesser extent, costs associated with increased professional services.

#### Financial Condition and Liquidity

Cash and cash equivalents plus accounts receivable balance, which consists of unpaid amounts due from the US government under our procurement and development contracts, at June 30, 2013 was \$210.6 million compared to \$193.2 million at March 31, 2013 and \$237.7 million at December 31, 2012.
